RESPONSE

In response to the Office Action mailed October 22, 2002, the period for response having been extended until March 22, 2003 by the enclosed Petition for Extension of Time, please amend the above-identified application as noted below and consider the remarks that follow.

In the Claims:

Please amend claims 9, 12, 18-20, 22, and 42 as follows:

9. (Amended) A device for heat sealing at least two thermoplastic films together, the device comprising:

front and rear opposing jaws moveable between an open position defining a zone for inserting the at least two films between the front and rear jaws and a closed position in which the front and rear jaws are proximate each other to compress the at least two thermoplastic films together, the rear jaw including a resilient portion facing the front jaw;

a front jaw release sheet positioned between the insertion zone and the front jaw when the front and rear jaws are in the open position; and

a heating element positioned between the front jaw release sheet and the front jaw, wherein the front jaw release sheet engages the heating element when the front and rear jaws are
